OVERVIEW

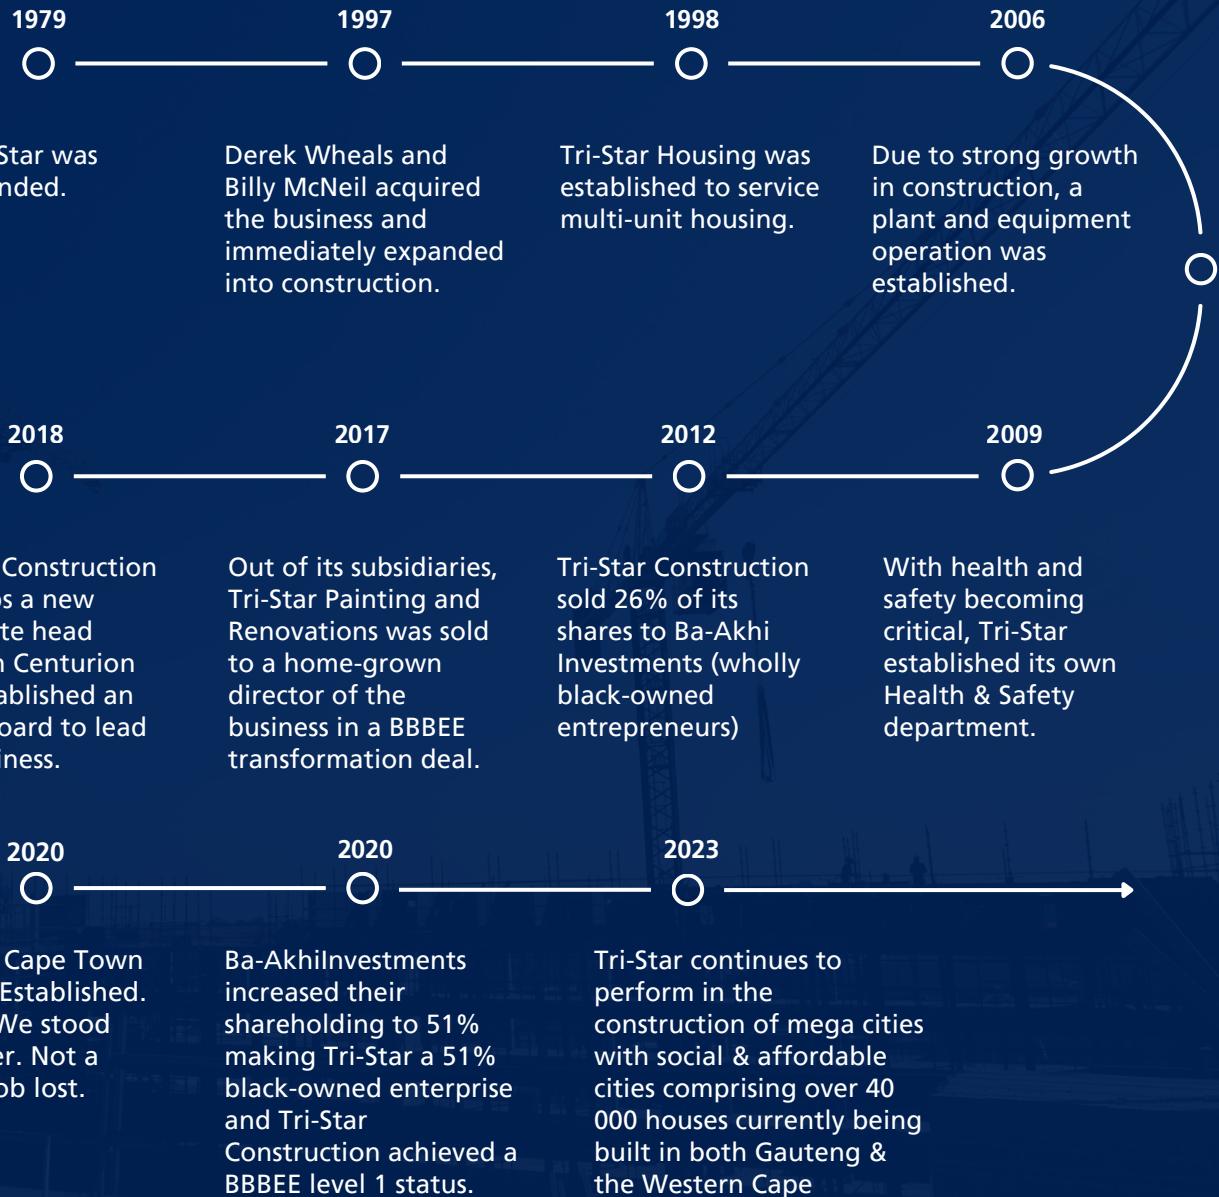

ABOUT US

1

"OUR PEOPLE ARE OUR BUSINESS" -DEREK WHEALS, CEO

OUR JOURNEY

OUR VALUES

We pride ourselves on our integrity, operating in an open and transparent way, treating people fairly and with respect.

We recognise our responsibility to all aspects of Health and Safety. We want to make a positive contribution to society through social investment, uplifting our people through training, mentorship, education, and opportunity. We build long term relationships with all our stakeholders.

We aim for excellence through innovation and collaboration to drive improved performance and deliver the best possible outcomes from our clients, our projects, our people, partners, and their wider community.

OUR VISION

Strive to be a highly capable, diversified construction company that will grow through opportunities that employ our core expertise and partnerships.

Growth will continue to be organic and controlled around our Tri-Star Construction core management, to ensure our values are infused and our culture entrenched.

Through good Corporate Governance, risk, and fiscal management we will ensure sustainability.

OUR SERVICES

At Tri-Star Construction, our experienced and highly skilled management team and workforce take a collaborative, hands-on approach to every project. We are committed to delivering safe, high-quality construction solutions that respond effectively to client needs and evolving industry standards.

With decades of experience across various sectors, we offer a wide range of services, including:

Traditional
Building
Contracts

Turnkey Solutions
(Design & Build)

Development
Management &
Property
Development

Client Partnerships
& Public-Private

OUR STAFF

Our people are our business – they are our most valuable asset. Management is always available to its staff and there is open and transparent communication channels that allow for queries and issues to be addressed and resolved at any time.

Paramount to our strategy is continued investment in the training and advancement of our greatest asset, our people. This embraces procedures for regularly reviewing all aspects of our business and the motivation of our people.

We recognise the value of our human capital and create value for our employees through:

A merit-based rewards system of competitive remuneration. Recognition and career advancement through training, education, and mentorship to encourage a collaborative range of skills and solutions.

A dark, high-angle aerial photograph of a large construction site. In the center, a tall blue lattice-boom crane stands on a multi-story building under construction, which is covered in white scaffolding. The building is surrounded by a white fence. The background shows a dense urban area with numerous houses and trees. In the top left corner, there are three large, semi-transparent geometric shapes: a teal triangle pointing right, a purple triangle pointing down, and a dark purple triangle pointing right.

**"EVERY GREAT PROJECT BEGINS
WITH A SOLID FOUNDATION, IN
PLANNING, IN PEOPLE, AND IN
PURPOSE."**

HEALTH & SAFETY EXCELLENCE

At Tri-Star Construction, health and safety are not just priorities, they are foundational to everything we do. Our dedicated Health & Safety division ensures that we consistently meet and exceed the stringent standards set by the Master Builders Association North (MBA North), underscoring our unwavering commitment to the wellbeing of our employees, clients, and communities.

We believe that a safe work environment reflects our core values: people, professionalism, and excellence. This belief is embedded in our proactive safety culture, comprehensive training, and rigorous on-site protocols.

MBA NORTH REGIONAL SAFETY COMPETITION AWARDS

Every award reflects our high standards, team dedication, and unwavering commitment to creating safe, efficient, and compliant work.

PLANT & EQUIPMENT

Established in 2006 as a subsidiary of Tri-Star, Tri-Star Plant and Equipment was founded to support our expanding business and rapid growth.

The primary function of Tri-Star Plant and Equipment is to provide essential services to Tri-Star Construction by supplying and maintaining construction plants, equipment, and machinery to the highest standards. With its own dedicated premises and management team, Tri-Star Plant and Equipment ensures that our projects are equipped with reliable and well-maintained resources, contributing to the overall success of our operations.

SOCIAL RESPONSIBILITY

2

"THE ROAD TO SUCCESS IS ALWAYS UNDER CONSTRUCTION" -LILY TOMLIN

TRANSFORMATION & B-BBEE

Transformation, led by the Department of Trade and Industry, aims to broaden South Africa's economic base by empowering historically disadvantaged individuals.

At Tri-Star, we proudly support this agenda. We've achieved B-BBEE Level 1 status through real change in our ownership and leadership structure, with 51% black ownership, equally shared between black women (25.5%) and black men (25.5%).

True empowerment, we believe, strengthens both our company and the communities we serve.

TRAINING & SKILLS DEVELOPMENT

Our people are our greatest asset.

Through our in-house bursary scheme and structured mentorship programmes, we invest in skills development across all levels.

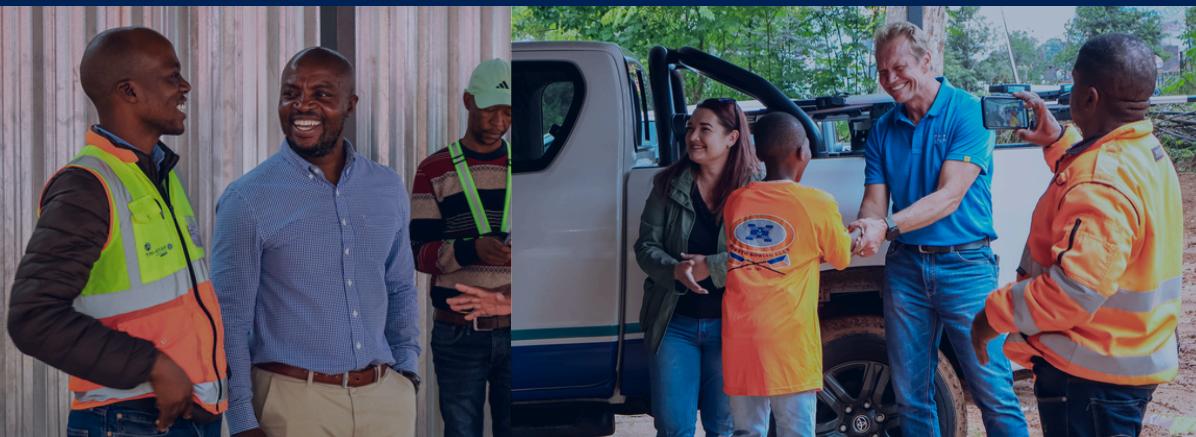

Since launching our Training Academy in 2020, we've welcomed CETA-funded apprentices annually, including electrical and plumbing learners, many of them young women, from communities such as Diepsloot, Clayville, Ivory Park, Soweto, Roodepoort, and Fleurhof.

INVESTMENT IN COMMUNITIES

We're committed to uplifting the communities where we work. At each project's start, we assess local needs and select a community project through our CSI Fund, in partnership with residents.

We support job creation by mentoring SMMEs and helping them participate in our projects. We also invest in youth by enrolling them in our Tri-Star Training Academy for hands-on construction apprenticeships, building skills for long-term employment.

PROJECTS

3

"WHATEVER GOOD THINGS WE BUILD END UP BUILDING US." –JIM ROHN

COMMERCIAL PROJECTS

36 Hans Strijdom

Client: Growthpoint Properties
Architect: Paragon Architects

- Structural and architectural alterations
- Interior and exterior finishes
