ABOUT US

OUR JOURNEY

1979

Tri-Star Construction was founded, marking the beginning of our dedicated journey in the construction industry.

1997

Derek Wheals and Billy McNeil acquired the business, initiating our expansion into the construction sector.

1998

We established Tri-Star Housing to specialize in multi-unit residential developments.

2006

In response to our rapid growth, we launched our own plant and equipment division to support our projects.

2018

We unveiled our new corporate headquarters in Centurion and established an Executive Committee (EXCO) to steer our strategic growth.

2017

Tri-Star Painting and Renovations was divested to a local director as part of a BBBEE transformation initiative.

2012

We sold 26% of our shares to Ba-Akhi Investments, a company wholly owned by Malose and Albertinah Kekana, marking a significant step in our transformation.

2009

Recognizing the importance of health and safety, we created an in-house Health & Safety department. This year also saw us expand our footprint into the *Western Cape*.

2020

Ba-Akhi Investments increased their stake to 51%, making Tri-Star a majority black-owned enterprise, and we achieved BBBEE Level 1 accreditation.

2023

We continue to excel, receiving health and safety awards and delivering large-scale commercial, student accommodation, industrial, retail, and mega-city residential projects.

2026

Looking ahead, we remain committed to hard work, growth, and creating a sustainable future for our clients, our staff, and communities in which we work.

OUR VALUES

At Tri-Star Construction, we uphold integrity in everything we do, operating transparently and treating all stakeholders with fairness and respect. We prioritize health and safety as fundamental to our operations, ensuring a safe environment for our teams and communities. Our commitment extends beyond construction we strive to make a positive impact on society through social investment, and by empowering our people through training, mentorship, education, and opportunities for growth. Long-term relationships are the foundation of our success, and we are dedicated to fostering trust and collaboration with clients, partners, and communities. Excellence drives us; through innovation and teamwork, we aim to improve performance and deliver outstanding results for our projects, clients, employees, and the wider community.

OUR VISION

To be a highly capable, diversified construction company recognized for our expertise, agility, integrity, and strong partnerships. We will pursue sustainable growth through organic and controlled expansion, guided by our core management team and values. By adhering to good corporate governance, managing risks prudently, and maintaining financial discipline, we will ensure long-term sustainability and success of Tri-Star Construction.

OUR SERVICES

At Tri-Star Construction, our experienced management team and highly skilled workforce adopt a collaborative, hands-on approach to every project. We are committed to delivering safe, high-quality construction projects that meet the needs of our clients and adhere to industry standards.

Our broad expertise allows us to offer a comprehensive range of construction services, including:

**Traditional
Building Contracts**

**Turnkey (Design
and Build) Projects**

**Development
Management
and Property
Development**

**Client Partnerships,
Public-Private
Partnerships (PPP),
and Joint Ventures**

We have a proven track record of delivering complex projects across various sectors, including multi-unit housing, high-rise residential, commercial, industrial, retail developments, and specialized construction projects.

OUR PEOPLE

At Tri-Star Construction, our people are the foundation of our success - they are our most valuable asset. We believe that open, transparent communication is essential, and management is always accessible to staff, fostering a supportive environment where queries and issues are promptly addressed and resolved.

Central to our strategic approach is ongoing investment in our greatest asset: our workforce. We are committed to continuous training, development, and career advancement, ensuring our team remains motivated, skilled, and aligned with our company's vision and values. We regularly review all aspects of our operations to identify opportunities for growth and improvement, both for our business and our people.

We recognize that our human capital creates sustainable value. To support this, we implement:

- A merit-based rewards system offering competitive remuneration
- Recognition programs and clear pathways for career progression through targeted training, education, and mentorship
- A collaborative environment that encourages innovation, skill-sharing, and problem-solving

At Tri-Star, we are dedicated to fostering a workplace where our staff can thrive, contribute meaningfully, and be proud of the role they play in building a better future.

"Every great project begins with a solid foundation, in planning, in people, and in purpose."

HEALTH & SAFETY EXCELLENCE

At Tri-Star Construction, health and safety are at the heart of our operations. Our dedicated Health and Safety division is highly experienced and committed to maintaining the highest standards across all projects. We implement rigorous safety protocols, conduct regular training, and perform continuous risk assessments to protect our employees, subcontractors, clients, and communities.

Our unwavering dedication to safety excellence has earned us numerous industry awards and recognition, reflecting our proactive approach and industry leadership. We are committed to ongoing improvement, ensuring our safety practices stay aligned with the latest best practices and regulatory requirements.

During the COVID-19 pandemic, our Health and Safety team played a pivotal role in shaping industry standards. We partnered with the Master Builders Association (MBA) to develop and implement industry-leading protocols, setting new benchmarks for safety and health standards during a challenging period.

At Tri-Star, safety is more than a policy - it's a culture. We believe that a safe working environment is essential to delivering high-quality projects on time and within budget. Our comprehensive safety management system promotes a safety-first mindset, fostering open communication, continuous training, and vigilant site inspections to ensure everyone goes home safely every day.

MBA NORTH REGIONAL SAFETY COMPETITION AWARDS

Every award reflects our high standards, team dedication, and unwavering commitment to creating safe, efficient, and compliant work.

PLANT & EQUIPMENT

Founded in 2006, Tri-Star Plant and Equipment operate as a strategic subsidiary of Tri-Star Construction, established to support our rapid growth and expanding project portfolio. This division is vital to our operational success, providing reliable, high-quality construction plant, machinery, and equipment.

Our plant and equipment is maintained internally to the highest industry standards, ensuring operational efficiency, safety, and dependability on every project site. With dedicated premises and a highly experienced management team, Tri-Star Plant and Equipment offers seamless service, minimizing project downtime and maximizing productivity.

This centralized approach enhances our ability to deliver projects on time, the requisite plant and equipment and at reasonable cost, while supporting our long-term growth ambitions. Our commitment to excellence in plant and equipment management underscores our dedication to delivering superior quality, safety, and efficiency across all our construction operations.

KEY STATISTICS

SOCIAL RESPONSIBILITY

TRANSFORMATION & B-BBEE

As a proud contributor to South Africa's economic transformation, Tri-Star Construction actively participates in the Department of Trade and Industry's BBBEE initiatives. Our commitment is to foster meaningful change by broadening participation of historically disadvantaged individuals across all levels of ownership, control, and management.

Through deliberate and strategic efforts, we have achieved a BBBEE Level 1 rating, underscoring our leadership in transformation. Our ownership has transitioned to 52% Black ownership, comprising 26% Black women and 26% Black men, exemplifying our dedication to creating equitable opportunities and inclusive growth within the construction industry.

INVESTMENT IN COMMUNITIES

At Tri-Star, we believe that sustainable development begins with uplifting the communities where we operate. From the outset of each project, we assess the specific needs of local communities, particularly those facing economic hardships, and develop targeted upliftment initiatives. Our approach includes partnering with communities to select impactful upliftment projects funded through our Corporate Social Investment (CSI) Fund. These initiatives aim to improve livelihoods and foster social cohesion.

Additionally, we prioritize the development of Small, Medium, and Micro Enterprises (SMMEs) by creating employment opportunities and supporting local entrepreneurs. We provide mentorship, business skills training, financial management guidance, and quality assurance support to enable these businesses to thrive and participate actively in our projects.

Furthermore, we actively promote youth employment by enrolling willing candidates into the Tri-Star Training Academy. Our youth development programs focus on upskilling aspiring artisans through apprenticeships in construction trades, with a strong emphasis on empowering young women to pursue careers in the industry.

TRAINING & DEVELOPMENT SKILLS

Our people are our greatest asset, and investing in their growth is central to our success. We are committed to continuous skills development through various initiatives:

An in-house bursary scheme that supports employees in acquiring higher qualifications, thereby enhancing productivity and service quality
Mentorship programs designed to facilitate deliberate skills transfer from experienced professionals to junior team members and our delivery partners

The Tri-Star Training Academy, launched in 2020, continues to run successfully. With the support of CETA funding, we have trained and absorbed many young men and women into the construction industry. Our apprentices are recruited from previously disadvantaged communities such as Diepsloot, Clayville, Ivory Park, Soweto, Roodepoort, and Fleurhof - areas where Tri-Star actively implements projects. We are proud to contribute to creating a skilled, inclusive workforce that drives industry transformation and social upliftment.

PROJECTS

COMMERCIAL PROJECTS

COMMERCIAL

36 Hans Strijdom

Client: Growthpoint Properties
Architect: Paragon Architects

- Structural and architectural alterations
- Interior and exterior finishes
- Specialist system installations

Radisson Hotel

Client: Akani Properties
Architect: Bentel Associates International

- Construction of hotel
- Top floor sky bar/restaurant
- 5 floors consist of 248 rooms
